

## ETP-WM-TPK-IP66 – Wall-Mounted Blue Light Station with Emergency Trip

### Description

Talkaphone's **ETP-WM-TPK-IP66** Wall-Mounted Blue Light Station (BLS) with Emergency Trip is an ideal security solution for mass transit applications. Typically used on train platforms, the unit features an emergency trip button, which can be engaged to cut power to the tracks and halt an oncoming train. The emergency telephone (ETEL) automatically dials a pre-programmed number connecting the user with an operator for further assistance. Only authorized personnel can disengage the emergency trip button using a special key.

### Features

- Includes emergency trip button, which can be engaged to cut power to tracks
- Attention-getting LED Blue Light is included and mounted inside a polycarbonate housing. The LED Blue Light is continuously lit and flashes for duration of a call when "EMERGENCY" button is pressed to draw attention to the unit.
- Emergency telephone faceplate is illuminated at all times by an LED Panel Light
- Vandal-resistant, 316 marine grade stainless steel construction
- A variety of signage, graphics and color choices are available
- ADA-compliant

### Specifications

Dimensions (W x D x H):	10.7 x 9.8 x 32.2 in. (272 x 249 x 818 mm)
Weight:	49 lbs. (22.2 kg)
Construction:	12GA (.105 in.) brushed marine grade (316) stainless steel with impact-resistant polycarbonate lens and resistance to UV-fade
